INSTALLATION

- 1.Remove protective film**
Remove the protective film from the adhesive pad on the back of the touch sensor module.
- 2.Stick the mirror switch**
Mark the touch position on the back of the mirror, ensuring the switch is aligned with the front display area. Attach the switch to the marked position on the back of the mirror, ensuring it is centered and secure.
- 3.Connect power and test**
Plug in the power supply and test the touch function to confirm proper installation.

HD001 LED Mirror Touch Dimmer Switch, 12V 3A 36W

Mirror Switches with Built-in Power Supply

Mirror switches that take mains input (110V or 220V AC) and output 12V DC to the LED strip, so the mirror needs no separate driver.

Single-Button Three-Colour Mirror Touch Switch, 12W Driver

Input voltage	12V DC
Max load	12W
Function	On/off + dimming
Mirror thickness	1-5 mm
MOQ	5 pcs
